

**INSTRUCTIONS DC105: Slider-Circle**

For a finished card  
5.75in x 5.75in  
Envelope size: 6in x 6in

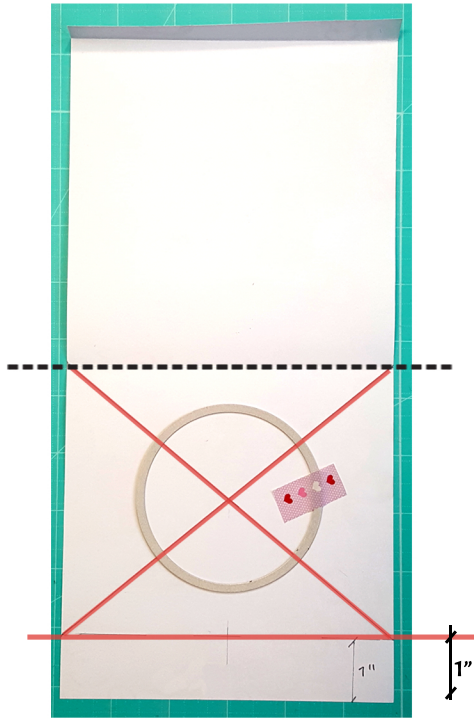

**1** Start with a 5 3/4in x 12in pattern paper

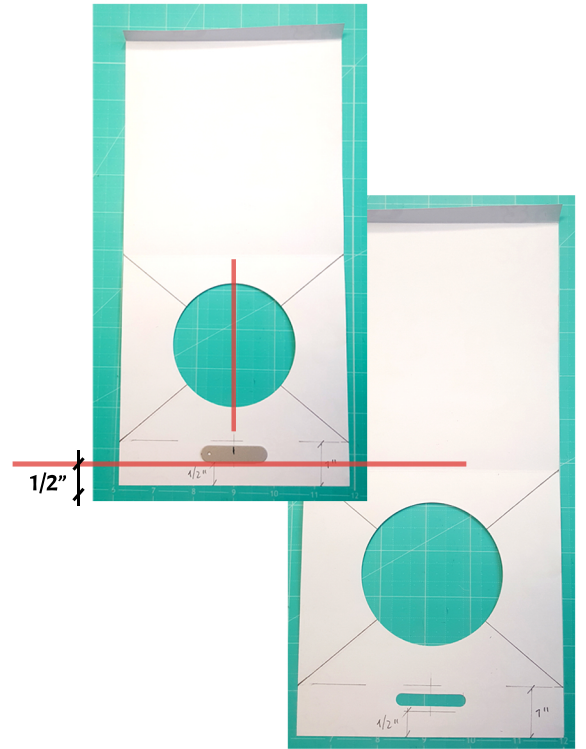

**2** Measure from top to bottom and fold on dotted lines

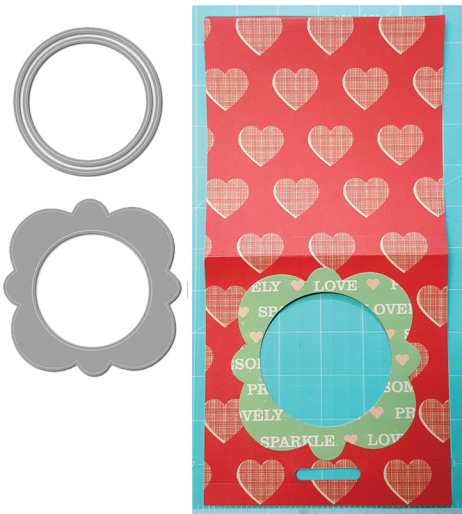

**3** a) Use the smaller circle die cut to cut the window.  
b) Leave 1" from the bottom for the slider  
c) mark the center point of the remaining space.  
d) Center your circle die cut using your marks as a guide and die cut the window.

**4** Mark 1/2" from bottom and position the slider die cut right above it. Mark the center of your die cut and align it with the center of the card.

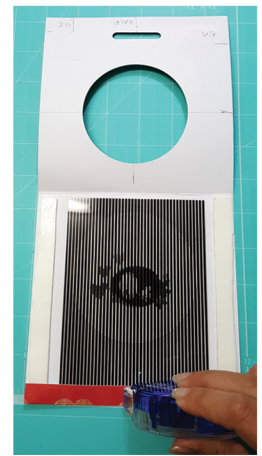

**5** Die cut the frame for the front of the card, or use both circle die cuts for a thinner circular frame.

**6** Stamp your Animation stamp using your window as a guide. Make sure the lines of the stamp are vertical and match with the animation grid.

**7** Cut animation grid to size and place it on top of the stamped image. Use double sided foam tape on both sides and apply glue on the folded flap to close the card.

**8** To create your slider button stick two pieces of double sided foam tape, one on top of each other, and place them on the grid inside the slider space.

**WATCH ME MOVE!**

Place your animation card on the front of a 5.75"x5.75" folded card or use it on your scrapbook layouts for a fun interactive element!

Choose the hearts or stars die cut to create your slider button. Also, try our embossing punches for a fun detailed embossed effect. They work great for animation buttons, and they coordinate with the die cuts.
